Satellite Beach, FL 32937

Dear Erik:

We are very pleased at how smoothly everything went and is going with the installation and use of our Pack-A-Drum manually compactors/deflators. Our management likes the fact that the unit is simple and safe to operate. We are also happy that the kitchen staff is making only one instead of three trips to the outside container, which increases the security of our restaurants.

As you predicted, the equipment worked so well and efficiently that I was able to immediately reduce our dumpster sizes and pickups by 50%. This resulted in a 50% savings on our waste handling costs, which exceeds the cost of the compactors on a monthly basis and generates additional savings to the bottom line. The savings realized were exactly what the Pack-A-Drum analysis stated.

Thank you for implementing the Pack-A-Drum System, which included installation and training. I would recommend to any Burger King that they purchase/lease a Pack-A-Drum compactor for their operation.

Sincerely
