Mark Diver  
Pack-A-Drum, Inc.  
519 North Birch Road #25  
Ft. Lauderdale, FL 33304

Dear Mark,

I would like you to know that we continue to be very impressed with the Pack-A-Drum trash compressors. Since our initial installation of the 15 units on April 10<sup>th</sup>, 2001 we have saved over 50% each month in our waste hauling costs. The elimination of the electric compactor Verti-PAK has proven to generate the most savings (in most cases over 60% savings!) and my concerns about being charged compacted waste rates with the Pack-A-Drum have gone unfounded.

In addition to hard line bottom dollars saved the Pack-A-Drum is a big hit with our restaurant managers and supervisors. Our supervisors like the fact that the machine is manual, very easy to use, and requires little training. Managers find the back of kitchen to be significantly cleaner and the number of trips to the dumpster reduced from 6-8 per day to 2-3 thus enhancing security.

I would highly recommend the Pack-A-Drum to anyone interested in saving bottom line dollars and improve sanitation and security. Please feel free to have any potential customers call me to discuss the many benefits the system has to offer.

Sincerely,

Ken Kastner  
Vice President of Operations  
McDonald's of Acadiana
